**Utility Superintendent Report**

- Sampling stations are \$1500 each. We need four of them and a pump which is \$180. They are six-inch square boxes that rise thirty inches out of the ground so are nonintrusive. Price is not installed. Mark predicts cost to install could be \$2000 each. We need them to be compliant with testing requirements.

Jen made a motion to purchase the four testing stations plus the \$180 pump from EJP. Stan seconded. Roll call vote. Marc - yes. Stan – yes. Jen – yes. Carla – yes. Ron – yes. 5-0.

- Valve markers for Dayton Road South. Mark would like a marker that says Water Valve or something like that to replace the 2x4's the contractor put in. He will get pricing.
- IDEM testing. He received a letter saying all public municipal water system must conduct a new test. It will be done at no cost to the town.
- Logansport meeting. Mark has to attend required meetings and this is the closest he could find.
- 2022 CCMG. We have one more billing before it can be closed out. Must be closed out by 2024.
- Discussed the striping on Dayton Road South which had been painted off-center a year ago causing ruts on the side and eroding the road.
- 2023 CCMG. Call for projects is in January. We need to discuss at December 12 meeting.

- Eric is now scanning and cataloging residential locates information. Mark wants to put it on his iPad.
- Salt box had a bearing go out. Had all three replaced by Rowe.
