

Dear INDOT,

The Town of Dayton needs a traffic light at the intersection of Dayton Road and State Road 38. This has been requested many times and with the town growing to the south it's needed now more than ever. The traffic from SIA to our west and from the church and housing south of town often make it difficult to turn either direction onto State Road 38. A stoplight is desperately needed.

I hope you will give serious consideration to this matter. It's very important to those living and working in the area.

Sincerely,
